Now, I'd like you to talk about something together for about two minutes.

I'd like you to imagine that you are talking about transport. Here are some of the ideas they are thinking about and a question for you to discuss. First you have some time to look at the task.

Which means of transport should be encouraged the most to better our world?

- Electric cars
- Cycling
- Buses
- Trains
- Car pooling (sharing)

Now, talk to each other about which means of transport help to protect the environment.

Thank you. Now you have about a minute to decide which means of transport should be encouraged most and how to do it.

Thank you.

Now, discuss these questions, in order, as appropriate:

- What types of transportation are best for the environment?
- How do you usually get around your local area?
- Should private transportation be more expensive?
- How far do you agree with the opinion that electric cars are the way forward?
