Now, I'd like you to talk about something together for about two minutes.

I'd like you to imagine that you are talking about hobbies. Here are some of the ideas they are thinking about and a question for you to discuss. First you have some time to look at the task.

Which types of activities could become the most popular in the coming years?

- Extreme sports (Base Jumping)
- Language Learning
- Rock climbing
- Triathlons
- Learning to play a musical instrument

Now, talk to each other about why these activities might be popular.

..............................................................................................................................

Thank you. Now you have about a minute to decide which will become most popular in the future.

..............................................................................................................................

Thank you.

Now, discuss these questions, in order, as appropriate:

- Why do some hobbies go in and out of fashion?
- Which hobbies will always be popular?
- If you could take up any hobby, which would it be?
- Have you ever quit a hobby that you used to love?
- Do we spend more time doing our hobbies now than in the past?
