PHRASAL VERBS:  
TECHNOLOGY

## Phrasal verbs related to TECHNOLOGY

*The most usual method to introduce phrasal verbs into speech or writing is through substitution. You take a word, LIKE for example and put it into a sentence, "I like reading books about dinosaurs". Then you take the term LIKE and replace it with the phrasal verb that you want to use, "I AM INTO reading books about dinosaurs". This way the student begins to incorporate simple phrasal verbs into their language use. A great way to practice this skill is by learning how to match phrasal verbs with their synonyms. Find out = discover information, look after = take care of. Language learners must practice exercises such as matching phrasal verbs with their synonyms, antonyms and similar expressions.*

### **Find out – discover information**

*I am eager to find out more about computing and programming.*

### **Work on – dedicate time to perfect sth**

*We had better work on our project over the weekend to start up with a bang.*

### **Work out – find a solution/resolve**

*Who might be able to work out the problems we have been having?*
