Now, in this part of the test you’re going to speak together about something for about two minutes. I’m going to describe a situation to you.

Your friends want to arrange an end of year trip and they want some advice on where to go.
Here are some ideas of where they could visit.
Talk together about the different places you could all visit for an end of year trip, and say which would be best.

All right? Now, talk together.
