**WORKSHEET: BODY
SYSTEMS**

There are 3 key systems in our body. Our body needs these systems to live. They are called respiration, circulation and digestion.

1. Which system is it? **Write** respiration, circulation or digestion.

1. Our heart pumps blood around our body.
2. We breathe air into our lungs.
3. Our stomach breaks down food so we can grow and stay healthy.

2. Match the organs to the system: **Draw a line** from organ to system.

| | | | | |
|-----------|---------|-------------|-------------|------------|
| LUNGS | STOMACH | HEART | TEETH | INTESTINES |
| | | | | |
| DIGESTION | | RESPIRATION | CIRCULATION | |

Body parts: Read, trace and write

| | | |
|-----------------|-----------------|--|
| HEART | HEART | |
| LUNGS | LUNGS | |
| STOMACH | STOMACH | |
| SMALL INTESTINE | SMALL INTESTINE | |
| SKELETON | SKELETON | |
| LARGE INTESTINE | LARGE INTESTINE | |
| BRAIN | BRAIN | |
| SKULL | SKULL | |
| PELVIS | PELVIS | |
| RIBS | RIBS | |

Answers:

Which system is it? Write respiration, circulation or digestion.

1. Our heart pumps blood around our body. **circulation**
2. We breathe air into our lungs. **respiration**
3. Our stomach breaks down food so we can grow and stay healthy.
digestion

Match the organs to the system: **Draw a line** from the organ to the system.

Digestion: stomach, teeth, intestines

Respiration: lungs

Circulation: heart
