

Now, I'd like you to talk about something together for about two minutes.

I'd like you to imagine that you are talking about **food**. Here are some of the ideas you could be thinking about and a question for you to discuss. First you have some time to look at the task.

What do people not usually bear in mind when buying food?

- where it comes from
- the sell-by-date
- the value for money
- how healthy it is
- the ingredients and information about allergies

Now, talk to each other about **what people should consider when buying food**.

.....

Thank you. Now you have about a minute to decide **which most people do not take into account when buying food**.

.....

Thank you.
