Learning English online

With all **these** technological improvements and even the emergence of Artificial Intelligence, it is clear that the way we learn **is** evolving. The classic case of sitting **down**, listening to a teacher in class and copying **off** a board is so last century. Just as libraries became outdated and had to evolve, so must the classroom and this is why we are seeing a surge **in** the development of Apps to learn English, **such** as Alrightenglish and Duolingo. People want easy to digest content in bitesize chunks that they can do on their own at any time, on their lunch break for example. What is more, they want to be able to access it on their phone **whenever** and wherever they like. This is why you need to take advantage of all the products **at** your disposal. Download an App, listen to that podcast and you will learn in no time!
